

## **AC Adviseurs from Eindhoven wins the Independer mortgage public award and has already won the Brabant-Zuidoost region 3 times**

Each year, Independer announces the 25 regional winners who have won the Independer mortgage award 'Best office'. In the Brabant-Zuidoost region, AC Adviseurs from Eindhoven was also declared the winner for the last time. The mortgage advice of this office has the best price-quality ratio in this region. Advisors who took part in this election were assessed by their clients on [www.independer.nl](http://www.independer.nl). To be eligible for the award, consulting firms had to receive a minimum of eight customer reviews. At least five customers also had to complete a Quality Check (based on a questionnaire from the Netherlands Authority for the Financial Markets). With this check, consumers can use the questionnaire to check whether their mortgage adviser has discussed all important topics with them. Each year, this public award is based on customer reviews from a full calendar year.

Ruud Martens, managing director of Independer: "We have set up the Mortgage Advisor Quality Check to make the industry more transparent. The scores achieved provide consumers with a clear insight into the quality of the services offered by various mortgage advisers. This insight helps the consumer to choose the right consultancy firm. The award that this consultant has won is important because it allows him to demonstrate that his services are very good."

With 880,000 visitors, Independer's mortgage module is one of the most visited online locations where people look for a mortgage. Via 'Search advisor', consumers can quickly and easily find the best mortgage advisor in their region. Consumers left 15,000 reviews this year alone. The total number of valuations is almost 95 thousand.
